

November 2016

November is here and the trees are reminding us why rakes and mulchers were invented. As we rake up our big piles for our children to jump in, please remember when you're ready to burn you need to call for a burn permit; more important please be wary of the wind direction as these piles are usually damp and can create a lot of smoke. Please be courteous to your neighbors.

This year Veterans Day was observed on the 11th of November. We flew our HUGE United States flag on Main Street in Honor of our Veterans. This great country owes a tremendous "Thank You" for the men and women who have served and put themselves in harm's way for us.

THANK YOU VETERANS

November is rifle deer season and as I wrote in October I will repeat now for the sake of a safe and successful season. Never hunt alone and if you do always have a plan; follow that plan and share that plan with someone so that in the event something happens people can be alerted and have a starting point to aid in a quick response. Always carry a compass, whistle, and cell phone or 2 way radio for communication purposes. Know the area where you are hunting. Most of all BE SAFE and GOOD LUCK.

Enjoy your Thanksgiving Day with family and friends. Eat a lot of turkey and go ahead and take that well deserved nap after stuffing yourself!

Have a safe enjoyable month.

The St. Albans Town Fire Department
